## WORK EXPERIENCE

### Camerons Brewery (May 2013 - July 2013) Graphic Design Internship

Helping mock up designs as part of a new branding campaign that the company was undertaking. Worked beside the head of marketing to create mock-ups as well as promotional and campaign posters which were displayed throughout the companies properties.

### Squegg (January 2016 - April 2016) Graphic Design Internship

3 month Internship at Squegg, working mainly on branding projects for a range of different clients and in-house projects.

Main duties included:

- Initial idea and designing mockups
- Finalising branding projects, from logo design to creating stationery sets
- Preparing documents for print  
Updating company website with new content, this included optimising images to be displayed on screen
- Updating clients websites such as updating their e-commerce store
- Presenting work to the creative director for feedback as well as presenting work to the client

### Status Digital (May 2016 - June 2016) Digital Design/Graphic Design internship

Working mainly with the head of UX to create design work for both print and digital experiences.

Main duties include:

- Writing and designing brand guidelines
- Designing branding content for clients, from initial ideas to finalised outcome
- Creating wireframes
- Research and creation of personas
- Prototyping UI to ensure that they work correctly

### Changing Health (March 2017 - Present) Junior Designer

Working beside the head of design to design for both print and digital. Helping to design and prototype new features for the Changing Health app.

Main duties include:

- Designing user interfaces
- Prototyping UI
- Creating brand guidelines
- Editing video
- Photo editing
- Designing promotional material to be displayed in GP surgeries
